**WHALE WATCHING PHOTO SAFARI**

**WHALE WATCHING – GUARANTEED SIGHTINGS**

The whales have arrived! Whether you have been whale watching before or it is your first time, few sights are more jaw-dropping than watching a whale charge up from the depths of the ocean and launch its 45,000 pounds into the air – returning with a spectacular splash. Be sure to join us in Cabo for our Whale Watching Photo Safari to live this experience. Or likely encounter whales as part of our Snorkel & Sea Adventure.

**TOUR STARTS MID DECEMBER**

**CABO DOLPHINS**

**ENJOY CABO'S PREMIER DOLPHIN CENTER, CABO DOLPHINS**

Few experiences are as captivating as swimming with bottlenose dolphins. And, at Cabo Dolphins, you have the opportunity to choose a swim to fit your desires. In the crystal clear water of our saltwater pools, located at our dolphin center in the heart of the marina, you will enjoy educational and playful interactions with our family of dolphins.

**OUTDOOR ZIP LINE ADVENTURE**

**AN OUTDOOR ZIP LINE ADVENTURE LIKE NO OTHER**

Combine the excitement of Cabo's longest zip line, thrilling rappels and hanging bridges and the natural beauty of Cabo's only UNESCO protected bio-preserve, and you get a recipe for fun! Enjoy all this on our Outdoor Zip Line Adventure. Rated as Cabo's best zip line adventure on Tripadvisor, we invite you to join us and experience this incredible adventure for yourself.

**GREEN CHRISTMAS – ECO FRIENDLY HOLIDAYS**

Every year, the holidays mean extra garbage and megawatts for lights and decorations. Since we are all lovers of the outdoors and our amazing planet, let's be extra eco-conscious this holiday season. Here are some tips from us:

1. Minimize wrapping; be innovative, use nice boxes you can re-use, wrap with the comics from the newspaper or recycle holiday wrapping paper.
2. Buy a potted tree (they are grown in a tree farm without impacting the forest) instead of cutting down a tree or using an artificial tree that consume significant energy and petroleum-based material during their manufacturing.
3. Use low energy lights on the tree and the house. They are just as bright and beautiful, and use much less energy.
